PROFILE

Undergraduate student at the University of Delhi exploring the intersection of computing, data analytics, and research. Curious, self-directed, and committed to learning by building — developing foundations in programming, data analysis, and AI while contributing to academic and community work that values both rigour and human impact.

EDUCATION

B.Sc. (Hons) Physical Science with Computer Science

2025 – 2029 (expected)

Motilal Nehru College, University of Delhi

- Year 1 of a four-year programme; coursework spans programming fundamentals, mathematics, and the physical sciences.

Senior Secondary (Class XII), CBSE — D.A.V. Public School

2025 · 85%

Secondary (Class X), CBSE — D.A.V. Public School

2023 · 88%

PROJECTS

Personal Portfolio Website

2025 – Present

Designing and developing a modern personal website from scratch — owning the design, implementation, and deployment end-to-end.

- Stack: HTML, CSS, JavaScript, Git, GitHub.
- First experience shipping a real product; foundations in modern web development.

Research — “Double Discrimination: Caste & Gender in India”

2025 · WDC, MLNC

Independent research conducted under the Women's Development Cell, investigating the compounded social impact of caste and gender; published on the WDC's official channels.

- Skills: research methodology, source synthesis, structured writing, documentation.

Python & SQL — School Capstone

2024 – 2025

First substantial programming project combining Python with relational databases to model and solve a practical problem.

- Skills: Python, SQL, basic systems thinking.

Data Analytics Foundations (*in progress*)

2026 – Present

A planned series of small projects focused on data cleaning, visualisation, and analytical storytelling.

- Stack (learning): Python, spreadsheets, SQL, visualisation libraries.

TECHNICAL SKILLS

Foundations: Python (basics), C, C++, HTML, CSS, JavaScript (basics), Git & GitHub (basics), MS Office (Word, Excel, PowerPoint).

Currently learning: Data analysis (Python & spreadsheets), SQL, data visualisation, applied statistics, introductory machine learning.

Tools & ecosystem: VS Code, Google Workspace, Git, GitHub.

COMMUNITY ENGAGEMENT

Menstrual Hygiene Awareness & Pad Distribution Drive

2025 · WDC, MLNC

Participated in an outreach initiative organised through the Women's Development Cell — contributed to community awareness, distribution logistics, and team coordination, reinforcing the value of social responsibility alongside academic growth.

STRENGTHS

Self-directed learner with a habit of asking precise questions · Comfortable working across disciplines (CS, mathematics, the humanities) · Clear written and verbal communication in English and Hindi · Collaborative, dependable, and steady under pressure.

LANGUAGES & INTERESTS

Languages: English (fluent), Hindi (native).

Interests: Independent learning across computer science and data; reading non-fiction and essays; building small projects that connect technology to real human needs.
